👤 Profile

Full Stack Web Developer with experience building and deploying production web applications using **React, Next.js, Laravel, and TypeScript**. Skilled in both frontend and backend development, with hands-on experience in **deployment, hosting configuration, and production setup**.

💼 Professional Experience

Frontend Developer / Team Lead

Feb 2026 – Present | Tbilisi

ROWIX LLC. 📄

- Lead the **Frontend Development Team**, coordinating tasks, reviewing code, and guiding developers to ensure high-quality delivery.
- Develop and maintain responsive web applications using **React, TypeScript, Next.js, SvelteKit, Tailwind CSS, and Sass**.
- Build **reusable and scalable UI components** using modern React practices and **React Hooks**.
- Manage application state and optimize component performance across large-scale projects.
- Collaborate with designers, backend developers, and project managers to deliver user-friendly and performant web applications.

📁 Projects

SVGalco – Multilingual Winery Platform (Freelance) 📄

Full-Stack Web Application | Laravel 13, React 19, TypeScript, Inertia.js, Filament 5

- Developed a production multilingual winery platform with a React/Inertia frontend and Laravel backend.
- Built a Filament CMS for managing wines, media, multilingual content, and customer inquiries.
- Implemented server-side filtering, sorting, and localization, with optimized Eloquent relationships and queries.
- Collaborated closely with a designer to bring the project vision to production, taking full ownership of the technical implementation, including **frontend and backend development, database architecture, deployment, hosting configuration, and production setup**.
